

EXPLORE

Welcome Message from the CEO

Dear Parents, Students, and Esteemed Members of the Paragon ISC Community,

It is with great pride that I welcome you to Explore Magazine, Issue 8, a celebration of the remarkable journey we have undertaken in the first term of the 2024–2025 academic year. At Paragon International School Cambodia (Paragon ISC), we remain steadfast in our commitment to nurturing confident, responsible, and globally minded individuals who are equipped to thrive in an ever-evolving world.

Education at Paragon ISC goes beyond academic excellence—it is about fostering lifelong learners who embrace diversity, uphold integrity, and contribute meaningfully to society. Our mission is to provide a safe and supportive learning environment where every student is encouraged to explore their potential, cultivate curiosity, and grow into responsible, socially, and digitally aware citizens.

With an unwavering commitment to internationalism and global citizenship, we instil in our students a deep respect for different cultures, perspectives, and values. Our rigorous academic programs, enriching extracurricular activities, and emphasis on character development ensure that they graduate as open-minded individuals, ready to lead and collaborate on a global stage.

Paragon ISC's Council of International Schools (CIS) accreditation is a testament to our dedication to world-class education and the highest global standards. As a school that values academic excellence, integrity, and respect, we take great pride in our students' achievements and their continuous pursuit of knowledge and innovation. I extend my heartfelt gratitude to our dedicated teachers, supportive parents, and hardworking students. Your collective efforts are what make Paragon ISC a beacon of excellence in education. Together, we will continue to inspire greatness and shape the future.

Warm regards,

Khurshedsho Karimov
CEO
Paragon Education Co., Ltd

Welcome Message from the Head of School

Dear Parents, Students, and Paragon ISC community,

Reflecting on the first term of the 2024–2025 academic year, I am proud to see our school continue to thrive as a hub of learning, innovation, and personal growth. This term has been filled with inspiring achievements, dynamic experiences, and a collective commitment to excellence from our students, teachers, and staff.

At Paragon ISC, our vision is to nurture self-aware individuals who respect others and contribute to their nation and the global community. We are dedicated to enhancing academic quality in a safe and supportive environment, helping students reach their full potential and grow into responsible, globally minded, and digital citizens. Our commitment to fostering integrity, respect, harmony, responsibility, and lifelong learning remains steadfast, guiding our students toward success in an interconnected world.

This issue of Explore magazine captures the vibrant spirit of our school—highlighting academic milestones, extracurricular successes, and the collaborative efforts that make our community so unique. Through internationalism and global citizenship, we continue to cultivate open-minded individuals who embrace diversity and promote global harmony.

I extend my deepest gratitude to our students, parents, teachers, and staff for their unwavering dedication and passion for learning. Your collective efforts are what make Paragon ISC an exceptional place for education and personal development.

As we embark on the next chapter of this academic year, I encourage each of you to embrace new opportunities, challenge yourselves, and continue striving for excellence. Together, we will shape a future that reflects our shared vision and values.

Wishing you all continued success in the upcoming term!

Warm regards,

Mr. Artur Tulepbekov

Head of School

Paragon International School Cambodia

CAMBODIA ROBOTICS

OUR STUDENTS SHINE AT ROBOTICS COMPETITION: TEAM 1 WINS FIRST PLACE IN ROBOT SUMO!

Scan here to watch the video

We are thrilled to share the incredible achievements of our Primary Campus students at the recent Robotics Competition! A total of 20 students participated, with seven competing in various categories and others coming to cheer them on.

Your hard work, teamwork, and innovative spirit truly paid off. We are incredibly proud of your dedication and determination throughout the event. You've not only made your school proud but have also set an inspiring example for your peers. Keep up the fantastic work!

OLYMPIAD 2024

ROBOT SUMO COMPETITION

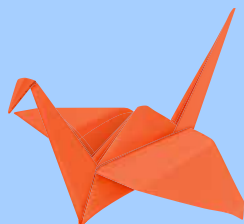

Watch our talented students in action at the Robot Sumo Competition. With passion, teamwork, and innovation, they took on every challenge with determination and skill. From impressive strategies to hard-fought victories, we couldn't be prouder of their accomplishments. Congratulations to all participants – your dedication is truly inspiring!

CELEBRATING WORLD PEACE DAY WITH ORIGAMI DOVES

Paragon ISC students came together to celebrate World Peace Day with a meaningful Origami Dove activity. This creative exercise symbolised peace and encouraged reflection on how individuals can contribute to a more harmonious world. Through crafting these doves, students learned about the importance of peace and expressed their hopes for a better future. Let's empower our students to continue to spread peace, one fold at a time.

INTERNATIONAL LITERACY DAY

Paragon ISC celebrated the International Literacy Day with our Kindergarten students. To inspire a love of learning, our students and teachers celebrated International Literacy Day with educational games and entertaining activities such as storytelling and reading. Moreover, kids enjoyed scribbling and crafting to express their creativity.

PARAGON ISC'S STAFF VISITED PAGODA DURING PCHUM BEN

Paragon ISC staff visited Mongkol Serei Kien Khleang Pagoda to commemorate Kan Ben. Pchum Ben is a significant festival dedicated to honouring ancestors. Families gather to offer food and prayers for the departed. This annual tradition helps us deepen our understanding and appreciation of Khmer culture and its values and strengthens our team bond while enjoying the peaceful outdoors together.

PLASTIC ODYSSEY VISIT

Paragon Student Union officers, classroom representatives, and selected students from Grade 4 to Grade 6 had an extraordinary opportunity to board the Plastic Odyssey, a floating lab combating oceanic plastic pollution. During their visit to Terminal TS3 Phnom Penh Port, they witnessed first-hand how recyclable plastic can be transformed into valuable items like plates, chairs, and tables! The visit inspired everyone to rethink their relationship with plastic and emphasised the importance of reducing its use. Let's work together for a cleaner, greener planet!

Volleyball Seeding Tournament

Our Senior Volleyball Boys and Girls teams recently competed in the ISSAPP Seeding Tournament at the Canadian International School. The Senior Boys secured a thrilling victory against CIA First, while the Senior Girls triumphed in two out of three games, winning against the CIS and ISPP B team. It was a fantastic day of teamwork and perseverance!

PARAGON ISC'S PRIDE: PRESTIGIOUS ASEAN SCHOLARSHIP!

Congratulations!

KIM LILY

We are delighted to see one of our exceptional students, Kim Lily, has been awarded the prestigious 2025 ASEAN Scholarship, joining only 11 selected outstanding students!

This fully funded, four-year scholarship offers Lily an incredible opportunity to pursue her studies in Singapore from Secondary 3 to Pre-University 2, leading to a Singapore-Cambridge GCE A-Level qualification.

Congratulations, Kim Lily! We are excited to see you reach new heights and represent Cambodia proudly!

Asean Scholarship
Nurturing Young Minds

Group Photo & Networking CAMBODIA CS CUP SUCCESS

Paragon ISC student Meng L. ranked 23rd in the Cambodia CS Cup, competing against approximately 100 participants. Impressively, he was the only high school student to advance to Round 3, solving challenging problems hosted on Codeforce.

The competition required participants to submit solutions that passed all test cases within the allotted time. Persistence and skill shone through as Meng L. represented Paragon ISC with pride.

Congratulations, Meng L.! Your dedication inspires us all.

CANADIAN UNIVERSITY FAIR

Paragon ISC students had the incredible opportunity to attend the Canadian University Fair, organised by our Alumni Association. This event aimed to provide students with valuable insights into higher education opportunities in Canada, including scholarship options.

With 13 representatives from prestigious universities in attendance, students could explore various academic paths and plan for their futures.

PARAGON TALKS WITH ALEX YOU

ParagonISC Talks hosted a special event at our secondary campus featuring guest speaker Mr. Alex You, the Cambodian national football team goalkeeper.

The theme of the talk, 'Exploring New Horizons,' inspired students and teachers alike as Alex shared his personal experiences and insights on a wide range of topics.

Alex gifted T-shirts to both students and teachers as a token of gratitude, making the event even more memorable.

SEVEN STARS OF PARAGON ISC SHINE IN NATIONAL BAC II EXAM

Seven 12th-grade students from the 2023-2024 academic year received Grade A from the national Bac II Exam. We are thrilled to celebrate the success of seven 12th-grade students from Paragon International School, who achieved an A grade in their high school Baccalaureate II (Bac II) National Exam!

Their hard work, dedication, and commitment have made Paragon ISC community incredibly proud. Congratulations to our outstanding students!

Scan here to watch the video

UNITED NATIONS DAY 2024-2025

Paragon ISC celebrated United Nations Day, which reminds us of our commitment to international peace, security, and global cooperation.

Students and teachers showcased the beauty of cultural diversity by wearing outfits representing their home countries or countries they admire.

Together, we honour unity and the shared goals that bring us all together.

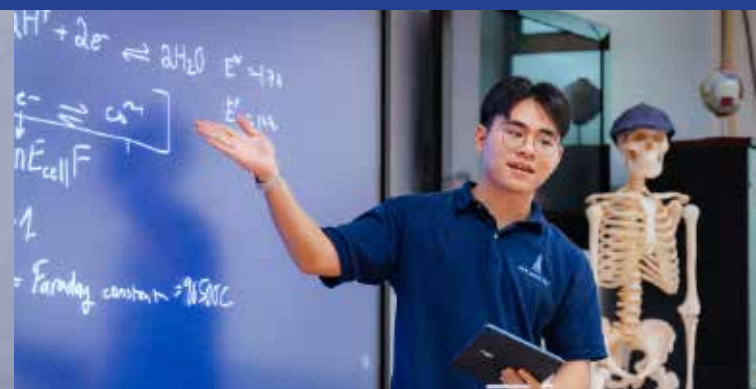

LEARNING SUPPORT PEER TUTORING AY 2024-2025

We're excited to announce the launch of the Learning Support Peer Tutoring program! Our high-achieving students began guiding and supporting their peers and younger students in various subjects, such as Mathematics, Science, Economics, and more.

This initiative fosters collaboration, boosts academic confidence, and strengthens our learning community.

PARENT-TEACHER PARTNERSHIP

Paragon ISC held a Parent-Teacher Association (PTA) Meeting with students' parents/guardians to foster a collaborative school community focused on students' academic, emotional, and social well-being. These essential gatherings help keep parents informed about their child's progress and school activities, building a proactive partnership for student success.

Paragon ISC hosted the Parent-Teacher Conference (PTC), fostering open communication and collaboration for the success of our young learners. This meaningful event provided an overview of students' academic achievements and development, allowing parents to gain valuable insights into their child's progress and well-being.

Thank you to all the parents and families who participated in building a stronger connection between home and school!

FAVOURITE ANIMAL DAY

Paragon ISC students from Pre-K and K Levels celebrated Favorite Animal Day with their teachers! The kids enjoyed expressing their love for their favourite furry, scaly, and feathery friends through fun arts and crafts activities.

This interactive co-curricular day was full of creativity, joy, and excitement, leaving lasting memories for the students and teachers alike.

FIRE DRILL AY 2024-2025

Our entire school community—students, teachers, and staff—participated in a Fire Drill to practice safe and effective emergency response.

Regular drills like these are essential for reducing panic and ensuring everyone knows how to act quickly and calmly in emergencies.

We're proud of how smoothly and successfully everyone responded. Safety first!

TEACHERS' DAY CELEBRATION

We celebrated Teachers' Day across all Paragon ISC campuses! Each campus held its own special celebration, filled with gratitude and appreciation for our educators' dedication, passion, and hard work. Thank you to all our teachers for shaping the minds of tomorrow and inspiring our students daily!

ARTS AND DESIGN FOR WORLD TEACHERS DAY

Paragon ISC held a special Arts and Design event as part of our World Teacher's Day celebration! Our talented Art teachers organised a poster-making competition, with students creating beautiful and heartfelt posters dedicated to honouring our teachers. A creative and meaningful way to show appreciation for all they do!

WEEKEND ACTIVITIES

Pre-K & Nursery students had an adventurous day at Doozii Playground, where they developed essential social and cognitive skills through play, teamwork, and cooperation.

Our K-Level students got creative by making popcorn with their teachers before settling in for an outdoor movie at the KG Playground.

Outdoor cinemas bring a magical mix of fun and learning, enhancing focus, problem-solving, and language skills.

MATH CLASS SHOP ACTIVITY

Paragon ISC students participated in an exciting math class called Shop Activity! Focused on understanding money and its value, they practised counting cash up to 20 in a fun, hands-on way. With a Kindergarten Shop set up, students role-played as customers, managing their money to buy things they needed and liked. It was a fantastic interactive experience that made learning both fun and practical!

CULTURAL AND DIVERSITY DAY

Paragon ISC celebrated Culture & Diversity Day at its Kindergarten campus. We had a fantastic celebration. Our little ones had a blast exploring booths from different countries. They learned about diverse cultures and languages while trying delicious traditional snacks.

We want to take this opportunity to express our gratitude to all the teachers and parents who joined us for this special event and represented their countries. Let's continue to celebrate and honour our beautiful culture and diversity!

SCIENCE WEEK

Paragon ISC's Science Department hosted a dynamic and inspiring Science Fair filled with creativity, innovation, and hands-on experiments. Students showcased their knowledge and skills through activities like the Health Station: Blood Type Analysis, led by A-Level Biology students, and other fascinating experiments. Kudos to everyone who participated and brought science to life!

WORLD KINDNESS DAY

Paragon ISC celebrated World Kindness Day with the theme “Creating Smiles: Kindness Packs,” supporting underprivileged students at Prek Leap Primary Public School. We provided school supplies and stationery through donations from staff, parents, and students, fostering awareness about educational disparities and spreading compassion. It’s truly a rewarding experience for everyone involved!

AWARDS CEREMONY

We celebrated the incredible achievements of our outstanding students at the Paragon ISC Awards Ceremony AY 2023-2024! It was a day filled with joy, pride, and the spirit of learning. From proud moments on stage to smiles shared with family and friends, the event highlighted the power of hard work and dedication. Here's to a bright future for all our awardees. Keep dreaming big, and remember your journey has just begun.

TEACHERS AND STAFF BIRTHDAY CELEBRATION + RECOGNITION OF SERVICE

Paragon International School hosted a monthly birthday celebration for our beloved teachers and staff. This event was to celebrate their special day and show gratitude for their dedication and hard work. We shared a delicious cake and memorable gifts as tokens of appreciation. Special recognition was given to a staff member for their years of commitment and contributions to the school. Here's to creating more beautiful memories together!

ANTI-BULLYING SEMINAR BY PSU

Our Paragon Student Union Officers hosted an impactful Anti-Bullying Seminar for Grade 11 students at the Secondary. This initiative aimed to address social barriers, foster empathy and create a harmonious environment for all. Together, let's continue to build a culture of kindness and respect!

Q&A

DIWALI-RANGOLI COMPETITION 2024

Paragon ISC hosted a vibrant Rangoli Competition as part of our Diwali celebrations. Our students brought their artistic skills to life, crafting stunning designs that honoured the festival's spirit of joy and light. A big congratulations to the Tumpor Horses team for taking first place! Here's to the art, the tradition, and the teamwork that made this Diwali unforgettable!

PARAGON ALUMNI ANNUAL SPORTS EVENT

A glimpse into the annual sports event of Paragon alumni!

We always have the opportunity to come together and create beautiful memories through the spirit of sports. This event aims to strengthen the bonds of friendship among alumni, and they participated in the competitions with great enthusiasm.

Check out the highlights from the event and discover the friendships and joy of the Paragon community through the video below!

Scan here to watch the video

20TH ANNIVERSARY REUNION PARAGON ISC CLASS OF 2004

The Paragon Alumni Association hosted a memorable reunion for the Class of 2004 to celebrate 20 years of friendship, growth, and cherished memories. The event was heartwarming as alumni reconnected, laughed, and reminisced about their school days. A delicious meal brought everyone together, making the day even more special. Here's to the unforgettable journey of our alumni and many more milestones to come!

Global Impact of Our Alumni! Dr. Deth Sok Udom

Recipient of the Global Community
Innovator Award 10th Annual
Founder's Gala Honoree
New York City

Join us in celebrating the outstanding achievement of Dr. Deth Sok Udom, Class of 2002, who has been awarded the Global Community Innovator Award at the 10th Annual Founder's Gala in New York City!

As the Chief Operating Officer of Paragon Education Co., LTD and a distinguished professor at Paragon International University, Dr. Deth Sok Udom continues to inspire and lead by example. His passion for empowering underprivileged youth, reducing poverty, and building sustainable communities in Cambodia has left a profound impact.

This prestigious award, presented by Global Tassels, recognizes his incredible dedication to creating lasting change on a global scale.

We are immensely proud of Dr. Deth Sok Udom's achievements, and the entire Paragon community celebrates this remarkable milestone. It is an honor to call him one of our own.

Congratulations once again, Dr. Deth Sok Udom!

PARAGON INTERNATIONAL SCHOOL STUDENT FIELD TRIP

Paragon ISC organised a field trip for Grade 12 students to the Kirirom 1 Hydropower Station in Kampong Speu province. This trip allowed our students to deepen their understanding of classroom theory by connecting it to practical applications.

This activity highlights our commitment to providing students with a well-rounded education inside and outside the classroom. Through such experiences, students gain valuable skills, build confidence, and explore new knowledge, helping them grow and develop more comprehensively.

REPRESENTING SDGS IN CLASSROOMS

by Loh Meyy and Sam Chan Sereyrath

We live in an endless web of complexity where everything is intertwined. As the years pass, navigating each predicament without collective effort has become increasingly more complex. While the recent decades' worth of economic growth and technological advancement has brought us a tremendous increase in living standards and allowed us to progress by an extensive margin, these factors have also brought about many new problems and the worsening of old wounds. To battle against this, the SDGs have been formed.

Now, what are the SDGs?

SDGs are a set of goals that were unanimously established by the United Nations member states in 2015. They consist of 17 aims for the world to achieve by 2030: end poverty, protect the planet, and ensure people live in peace and prosperity. These goals have been set internationally to ensure that different parts of the world are making efforts to change and sustain resources for the next generation to come, as well as improving the lives of everyone currently. This is why we chose to discuss this topic in our class. It is of utter importance that we consider the lives that will change due to the lack of actions taken in the present.

In the first quarter of this academic year, the students of class 12 international took this understanding of the SDGs. They applied it in a serious discussion among their peers in a balloon debate. The class is divided into two teams: team what goes and team what stays. Each team must argue for or against the presence of their own respective SDGs. Each team speaker is given 3 minutes to present their arguments, followed by a 1-minute rebuttal speech from the opposing team. After this clash, the speaker is given another chance to defend their points against rebuttals from the other side. This is why our class has chosen to participate in it for our Global Perspectives class, which includes using SDG goals.

Conducting a balloon debate on Sustainable Development Goals (SDGs) is crucial as it actively engages students in addressing pressing global issues. This format encourages participants to research and articulate their perspectives on various SDGs, encouraging a more profound sense of critical thinking. By debating the merits of different solutions, students deepen their understanding of complex challenges and develop a sense of responsibility and initiative toward creating a more sustainable future. This experiential learning approach empowers them to become informed global citizens, ready to tackle the world's most pressing problems.

Using the topic of SDG goals for our class discussions, we can use various skills. We could deconstruct the goal at hand and evaluate our stand on it. These goals will aim for a positive impact; specifically, students on the opposing team chose and brought up interesting supporting statements, such as the efficiency gained from removing redundant SDGs. Communication and collaboration are also key, as students assist in discussions before rebutting, comparing the points they've gathered from the speech given as well. Most importantly, persuasion through evidence and presentation. To convince everyone that your stance is correct, you must present yourself to be confident in your topic by educating everyone about it.

In conclusion, after having finished these series of debates, the students were not only able to be assessed but also helped to direct their focus on improving specific skills interconnected with debating, which they lack. They also have the opportunity to learn from observing as they've been exposed to their peers' debating methods and presenting their points. Allowing them not only to learn but also to adjust and gain confidence in a formal debating setting.

Daniya Tat's Internship Journey at Paragon ISC

Meet Daniya Tat – Class of 2024, pursuing her passion for business through a six-month internship.

“Hi, my name is Daniya Tat. I just graduated from Paragon International School in 2024, and I have been interning here at Paragon International School as well.

Initially, I noticed that my IGCSE business subject was very broad, and I wanted to explore that further. That's why I decided to pursue Economics and Business for my AS and A Levels. Surprisingly, through these subjects, I was able to learn a lot.”

 Your outstanding IGCSE results (5A, 3A and 2A stars, A, A*, A*, A, A) are a testament to your dedication. How did achieving this inspire you to pursue a path in business?

 “Because of my hard work, I managed to jump from a B to an A in Business from AS to A Levels. For Economics, I improved from a C to an A in my A Levels. This experience taught me a lot about thinking outside the box, analysing patterns, and understanding the secrets behind each question. These skills greatly helped in my studies and motivated me to excel further in the field of business.”*

Why did you choose to intern in the Business Department?

“The reason I chose this department is that I studied Economics and Business in my A Levels. Additionally, I wanted to contribute to the school by aiding my under activities. It’s a way to give back to the community that shaped me.”

What is your typical day like in the Business Department?

“When I arrive at school, I usually check in with my supervisor to see if there’s any work for me. If not, I walk around the school and sometimes meet up with my intern friends to discuss tasks.

If the Economics department doesn’t have anything for me, I go to the Business department. My tasks include organising debates, digital art projects, poster making, graphic design, and grading papers for my Economics supervisor. I help wherever needed, ensuring that everything runs smoothly.”

How has your internship helped you develop new skills?

“Personally, the internship has greatly developed my social skills. I’ve become more confident in talking to people and offering help. Social skills are incredibly useful in life. Knowledge is important, but being able to share and apply it is equally vital. This internship has helped me grow in this aspect.”

What are your career goals?

”For my career, I want to focus more on the economic side of business. In Cambodia, many business courses are available, but there’s a lack of specialised economics courses. That’s why I plan to study abroad – to bring this knowledge and opportunities back to Cambodia. My goal is to provide more options for the younger generation to explore and grow in this field.”*

What advice would you give to students interested in business?

“My advice, not just for business and economics but for any goal, is to never give up easily. Give yourself a second chance. If you fail, take some time to recover, then try again. That second chance can be incredibly rewarding, and it’s worth the effort to push through.”

INSIDE THE LAB: MUYHUNG'S JOURNEY FROM VALEDICTORIAN TO SCIENCE INTERN

Q What inspired you to pursue science, and how did that passion develop over time?

A Initially, I was not very interested in science. I was more into the social sciences. At one point, I even wanted to be a lawyer or a diplomat. The moment that kickstarted my interest in science was in eighth grade when a teacher kept asking “why,” which really got me curious about the intricate nature of science itself. That curiosity grew over time, especially during my high school years. I did A-level biology and chemistry, and the complex nature of the syllabus content gave me a sense of curiosity. I would always try to find out why something happened, and I wouldn't stop until I was satisfied with the answer. To me, that's what science is all about—building upon the question “why.”

Q Why did you choose to intern in the Science Department?

A Around the time I graduated, a teacher introduced me to the idea of interning at school. I had also seen my seniors intern at school for the past few years. I thought that interning would give me an idea of what goes on behind the scenes in the science lab, especially in both chemistry and biology. As students, we don't really know what happens in the background, so I was very interested in learning the intricacies of the science labs. I also believed it would be a valuable learning experience, not just in science but also in terms of gaining work experience. It gave me a glimpse into what a real-life workplace is like, and school provided a safe environment to make mistakes and grow as a person.

Can you walk us through a typical day as an intern?

My daily tasks include taking care of the equipment in the lab, maintaining its quality, and checking if it works. Of course, this involves cleaning the equipment to keep it neat and tidy. Another task is helping prepare for any experiments that teachers or students may need, especially since their syllabus involves a lot of practicals. I assist them in preparing for these exams and practicals. During the practical sessions, I'm on standby in the lab to assist students if they need anything or have questions about the equipment, the lab, or the content itself.

What's the most important thing you've learned during your internship?

The most important thing I've learned is not science itself but rather working in a workplace. This internship has prepared me for the real world by giving me a demo of a real-life workplace. I've also noticed that I've grown emotionally and mentally. When I first started, it felt awkward to be back at school, not as a student but as a member of staff. Over time, I slowly immersed myself in the role of a lab assistant, which gave me a lot of personal growth and development that I feel will be essential for my future workplace experiences.

Where do you see yourself in five years?

Right now, the future is uncertain because I don't have one clear path yet. I plan to pursue a science degree because I believe it will provide many options and opportunities for different pathways. Realistically, in five years, I hope to see myself completing my degree and doing what future me wants to do. I do have a rough idea—I'd like to be involved in research or education, but who knows what the future holds?

What advice would you give to younger students who want to pursue science?

The first step is always the hardest, but once you decide to pursue science, the rest will come easier. Like any other field, you need a lot of commitment and responsibility toward your studies. Work hard, study hard, and don't slack off. Don't be afraid to try and experiment because that's what science is all about. Never hesitate to ask questions. Don't be shy, and never stop asking yourself the question "why."

BONITA SAMBATH: A JOURNEY THROUGH NUMBERS

Meet Bonita Sambath. A dedicated member of Paragon ISC's Class of 2024, who is currently interning in the math department.

Q Could you introduce yourself to the audience?

A My name is Bonita, and I'm a recent graduate from Paragon International School. I am currently interning as an assistant to my math supervisor in the math department.

Q What inspired you to focus on mathematics?

A What inspired me is that I love to learn. The love of teaching people inspires me to understand the world's mysteries. So, that's what drove me: my general fascination drives me.

Q Why did you choose to intern in the Math Department?

A First off, I wanted to help students understand and feel the love for math as much as I do and not be so scared or think of math as this big, horrible thing.

Q Can you describe a typical day during your internship?

A On a typical day, when I arrive, I clock into his

office. If there is tutor work, I will arrange some topics to teach students later. Then, while I have the time, I help correct assignments, tests, and exams to help off-load the work weight from my supervisor.

Q How has this internship helped you grow?

A This internship helped me grow in many ways, but most importantly, I love becoming more socially outgoing. Secondly, my appreciation for all the math teachers out there grew. My understanding of math grew more, and thanks to it, my knowledge of math also grew.

Q What are your future aspirations in the field of mathematics?

A For me, I love to create, understand, and learn. So, in the future, I want to be an engineer to help with problem-solving, and I want to use my mathematics skills and passion to create solutions to all problems. My career goals are to decide between two. First off, it's a much more stable and reasonable civil engineering. The next one is that this is a weird passion of mine, but I've always been into nuclear engineering. My dream in the next five years is to work in a field relating to nuclear physics. Hopefully, somewhere in France is working on developing a more efficient way to get nuclear energy. That's, like, an unrealistic dream, but it's there. I don't know if it's cringe or not, but I only found out recently about this quote that if you're scared to do it, just do it scared. And it's one of the best advice for everything in life. Just do it.

CELEBRATING EXCELLENCE AND ACHIEVEMENT

Relive the highlights of our Awards Ceremony, where hard work, dedication, and talent were honoured. Congratulations to all our incredible awardees who inspire us with their outstanding accomplishments.

Scan here to watch the video

DIPLOMACY IN ACTION: THE 12 INTERNATIONAL MODEL UNITED NATIONS EXPERIENCE

Model United Nations (MUN) is more than just an educational simulation; it's a transformative experience that challenges students to think critically, collaborate effectively, and communicate persuasively. By stepping into the roles of diplomats, participants engage in high-stakes debates on pressing global issues, fostering skills that extend far beyond the conference room.

The Power of Preparation

Success in MUN hinges on thorough preparation. Before the event, participants undergo rigorous training to master the formal rules of procedure, the structure of international relations, and the language of diplomacy. Through a series of seminars and simulated sessions, students refine their debate strategies, enhance their research abilities, and familiarise themselves with the nuances of parliamentary procedure.

Mock debates serve as a crucial component of this preparation, allowing participants to navigate the pressure of real-time negotiations. While the initial sessions may feel daunting, each practice round builds confidence, transforming uncertainty into well-structured, persuasive arguments. Students gradually develop the poise and expertise required for MUN success by honing skills such as resolution drafting and collaborative problem-solving.

Overcoming Challenges

Despite the benefits of rigorous preparation, the journey to MUN excellence has hurdles. One of the most significant challenges faced by participants was scheduling conflicts. With packed academic calendars, finding time for consistent mock sessions proved difficult. However, these limitations only heightened training intensity, reinforcing the importance of adaptability and time management.

Students also had to navigate the unpredictable nature of live debates. MUN is not a scripted event; it demands quick thinking, strategic decision-making, and the ability to respond dynamically to unfolding discussions. Learning to improvise and handle unexpected challenges was a key takeaway for many participants.

A Global Perspective

The heart of MUN lies in understanding complex geopolitical landscapes and seeking diplomatic solutions. Discussions centred around the Taiwan Strait for this particular event, which required deep research into historical contexts, key stakeholders, and potential global ramifications. Delegates explored multiple perspectives, recognising that true diplomacy is finding common ground amidst differing national interests.

Lessons Beyond the Debate

Beyond improving public speaking and negotiation skills, MUN instilled invaluable life lessons. Participants learned to prioritise tasks efficiently, collaborate under pressure, and analyse international issues with a critical eye. More importantly, they profoundly appreciated the power of diplomacy and collective problem-solving.

Ultimately, Model United Nations is not just about debating policies; it's about shaping the next generation of global citizens. As we look forward to future conferences, we will bring enhanced skills and a more profound commitment to international cooperation and understanding.

SPORTS & WELLNESS DAY AY 2024-2025

Our Sports & Wellness Day 2024-2025 reflected the power of teamwork and wellness, which we care for and embrace among the community. It was more than just games. It was about building bonds, embracing challenges, and celebrating our vibrant Paragon ISC community. Here's to every cheer, effort, and victory together, we thrive!

PRELIMINARY ROUNDS — SPORTS WEEK!

Our Sports & Wellness Day 2024-2025 reflected the power of teamwork and wellness, which we care for and embrace among the community. It was more than just games. It was about building bonds, embracing challenges, and celebrating our vibrant Paragon ISC community. Here's to every cheer, effort, and victory together, we thrive!

SPORTS TOURNAMENT AWARDING CEREMONY

We celebrated the achievements of our male athletes who represented Paragon ISC in Thailand from December 6-9. Competing in various sports categories, they displayed exceptional talent and dedication.

Achievements:

1st Place: Football and Volleyball

2nd Place: Singles Badminton

3rd Place: Basketball and Doubles Badminton

A big congratulations to our athletes for their incredible performance and for making us proud!

Spelling Bee Finals 2024-2025: A Buzzing Success!

Paragon ISC hosted its highly anticipated annual Spelling Bee, where our Primary students from Grades 2-6 showcased their spelling skills in a thrilling competition.

With enthusiastic cheers from classmates, support from teachers, and the presence of proud parents, the event was a true celebration of learning and community spirit.

Congratulations to all the finalists and winners for their incredible performances, and a big thank you to our English teachers and judges for making this event a success!

Staff Ye End CELEBRATION

Paragon ISC staff came together to celebrate the conclusion of Term 1 and the year-end festivities. The event was filled with joy as everyone shared memorable moments, participated in performances, exchanged gifts, and embraced the spirit of togetherness.

It was a wonderful way to end the year and welcome the New Year with unity and excitement.

A NEW CAMPUS FOR A BRIGHTER TOMORROW

Experience Excellence in Education at Our State-of-the-Art Campus

Paragon International School Cambodia is proud to unveil our brand-new campus, designed to inspire innovation, foster creativity, and empower future leaders.

Visit Us Today!

Explore our new campus and discover a world-class education tailored to meet the needs of 21st-century learners.

Why Choose Our New Campus?

Modern Classrooms

Bright, spacious, and equipped with advanced technology for optimal learning.

Advanced Science & Tech Labs

Innovative spaces for hands-on experiments and discovery.

Comprehensive Sports Facilities

From basketball courts to a swimming pool, encouraging active, healthy lifestyles.

Interactive Playgrounds

Safe and exciting outdoor spaces designed to promote fun, creativity, and interaction for students.
